COMPANY OVERVIEW

Our History

Owned and founded by Mrs. Jaine L. Sim in 2013, The Kimja Trading and Construction Corporation (KTCC) humbly started as a trading company focusing on manufacture, sales and rental of scaffolds, formwork and accessories. Her endeavor and with the support and of our employees, KTCC has transformed from a small-time entrepreneur to a multimillion-peso company. Moreover, KTCC is built not just to achieve profitability but also to attain socioeconomic development, giving emphasis in the creation of employment for those marginalized labor groups.

Additionally, we began to offer other hardware and construction materials, installation and dismantling services, and glass and aluminum works, expanding our scope of work day by day. Over the years, KTCC have ventured into civil works and construction. We are collaborating with several tower companies for new tower build and tower retrofitting.

Currently, the majority of the projects undertaken are located in Greater Manila, CALABARZON, where our main office and factory warehouse is located. Extending in Central Luzon, and now slowly gaining clients for Visayas, the Bicol Region, and in Mindanao. Having a lot of projects in these areas encouraged us to stretch our branches to cater for the increasing demand in construction services and to accommodate our clients efficiently. We now have our branches in Cainta Rizal, Baguio City, Naga Bicol, Iloilo City, and Cebu City. Through our hard work and determination, we recently achieved the ISO 9001:2015 Quality and Management System Certification this year of 2024.

OUR GOALS AND VALUES

Mission

To develop highly skilled people committed to deliver outstanding services and successful projects to clients.

Vision

To be one of the leading scaffolding, formworks and construction company across the industry.

Quality Policy

At Kimja Trading and Construction Corporation, we are committed to delivering high quality scaffolding products and accessories that meet and exceed customer expectations while adhering to relevant safety and regulatory standards. Our company mindset is designed to ensure consistency, reliability, and integrity in every aspect of our scaffolding fabrication processes. We are also committed to continually improve our quality management system.

Core Values

Expertise.

Integrity.

Health and Safety.

OUR SERVICES

Consulting and Design

Our team of experts offers consultation and design services for all aspects of building materials. We offer engineering advice for which scaffoldings to use, estimation of materials, and sometimes checking of the site location for more precise measurements.

Construction and Materials

When it comes to reliable construction and building materials, we offer a wide range of products at low prices, and a variety of options for your project needs, including brand new and used scaffoldings for sale, as well as scaffoldings available for rental per month.

Installation and Dismantle

Whether you need us to install scaffolding for a specific project or require a complete dismantle, we provide a tailored quotation to meet your budget and schedule. Our team of experienced NCII holders ensures that the installation and dismantling process is done efficiently and safely.

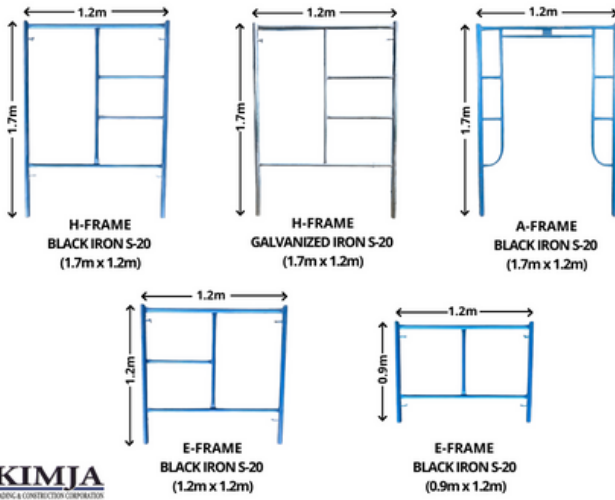

Trucking and Distribution

We offer reliable and timely delivery of scaffoldings and materials, making sure they arrive on time and in perfect condition. With our wide range of distribution locations, we can get your materials to you no matter where you are located.

LET'S WORK TOGETHER

Cheers to our lifelong goals! Collaboration and cooperation are keys in our journey towards success.

By pooling our strengths, skills, and resources, we can achieve more than we ever could on our own. Working together also allows us to learn from each other and to grow both personally and professionally.

So let's put aside our differences and work towards a common goal, hand in hand, to make a positive impact in the world.
